Main Plaza Tree Pruning Traffic Advisory

New Braunfels, TX – To allow for tree pruning the City of New Braunfels has announced a temporary closure of the Main Plaza inner traffic circle lane on Tuesday, January 15th from 8:00 a.m. until 5:00 p.m.

“The objective of pruning is to increase structural integrity and encourage the health of the trees,” said Kelly Eby, Urban Forester. “In addition to allowing clearance over the streets, pruning reduces structural defects, co-dominate stems, multiple branches, weak attachments, and overly dense canopies.”

The public should expect traffic delays in this area. Work is expected to be completed during the timeframe stated, weather permitting. For additional information, contact Kelly Eby, Urban Forester, at 830-221-4359.
