Local Teens Give Back through Summer Program

New Braunfels, TX - Local teens are giving back this week, thanks to the Parks and Recreation Departments' Service with a Smile summer program.

"Service with a Smile is a coordinated effort to give area youth an opportunity to learn new skills, have fun and volunteer within the community," said Erin Flores, Recreation Programs Supervisor. "It's very important to get the younger generation involved in community service."

The teens have participated in a variety of service opportunities this week at different local organizations. Activities included weeding and landscaping in Landa Park, baking and delivering cookies to My Friends Haus Adult Day Care, cleaning kennels and walking animals at the New Braunfels Humane Society, and visiting residents at Rio Terra Assisted Living

The Service with a Smile program will conclude tomorrow with the teens volunteering at the Habitat for Humanity warehouse. For more information on upcoming Service with a Smile programs, and other Parks and Recreation Department offerings, visit www.nbtexas.org/parks.
