New Braunfels Public Library Conducting Youth Services Surveys

New Braunfels, TX - The New Braunfels Public Library is currently conducting two patron surveys: one for teens who use the library and the other for families whose children attend library programs.

The surveys poll patrons regarding the timing of library visits, reasons for visiting the library, the kinds of programs patrons would like to see for their children, the ways that patrons learn about library events for children, and the kinds of programs that teens would like to attend. This survey may be accessed at www.nbtexas.org/library or in print format in the Library's Children's Room or Teen Area through the end of January.

"We hope that this survey will help us to provide the kinds of programs families desire, and at times that are the most convenient for them," said Library Director Gretchen Pruett. "The community's participation will help us serve families in ways that enrich their lives. Early literacy and lifelong learning are goals of the library. The information we glean from the survey will help us provide the services that most benefit the youth of our community."
