**Chemistry Roadshow at Westside Rescheduled for Saturday, June 20<sup>th</sup>**

**New Braunfels, Texas** — The Chemistry Roadshow, a science program for children originally scheduled for Saturday, June 6<sup>th</sup> at the Westside Community Center has been rescheduled for June 20<sup>th</sup> at 1 p.m. Those interested in attending may register on the library's website at [nbtexas.org/library](http://nbtexas.org/library), call 830-221-4300, or simply come to the Westside at the time the program is scheduled.

The Chemistry Roadshow is a program presented throughout Texas in the Summer by Texas A&M University Assistant Chemistry Professor, James D. Pennington, Ph.D. This event is a public service program with two complementary and interlocking goals: to entertain and educate students using chemistry. In each performance Professor Pennington strives to entertain and excite audience members with sensory impact while teaching them that chemicals and chemistry are not only vital to our lives, but also can be fascinating and fun.

The Westside Community Center is located at 2932 S. IH 35.

For more information about Children's programs contact Youth Services Librarian, Jenny Rodriguez, at 830-221-4314.
