**Fire Station #1 Occupied and Fully Functional**

**New Braunfels, TX** – The rodent issue recently noted at Fire Station #1 has been resolved and the firefighters assigned to the station are back in residence, along with their apparatus. Personnel and equipment normally assigned to Station #1 were temporarily accommodated at either Station #4 or Station #6 during the inspection and mitigation process earlier this week.

The station has been exterminated and sanitized and normal operations are again being conducted from the facility.
