Public Meeting on Proposed Drainage and Erosion Control Design Manual

New Braunfels, TX – The City of New Braunfels will host a public meeting regarding planned updates to the Drainage and Erosion Control Design Manual at the McKenna Events Center, 801 West San Antonio Street, on Tuesday, October 20th at 6:00 p.m.

This program will focus on changes to the Manual and will feature general information regarding the requirements for development as well as an overview of stormwater management in the City. City Public Works staff, including the Engineering Division, will be on hand to meet with residents and answer any questions concerning development criteria and the stormwater management program.

The City is encouraging all citizens to take advantage of this opportunity to learn more about how development is managed, how drainage is addressed for new developments, and to share their opinions and any concerns.
