Evening Session Added for Smartphone/Tablet Assistance

New Braunfels, TX - The library has added an evening class on the basics of smart devices on Thursday January 14th at 7:00 p.m. in the Main Library meeting room. Both smartphones and tablets will be covered in the evening session.

A number of the library's newest services are available on these devices; however each device has its own specific protocols so providing a simple instruction manual is not possible. Library staff members have some expertise with most devices and operating systems, and are a great resource. Attendees should bring their equipment and passwords for their main email account and any other services they may want to use.

“The library is pleased to offer classes to the general public on how to use their new devices,” said Library Director Gretchen Pruett.

For more information about this program please call the library main number at 830-221-4300.
