Street Maintenance Mill and Overlay Resurfacing Beginning

New Braunfels, TX – The City of New Braunfels has announced that potential traffic delays are to be expected on the following streets while they are being resurfaced as part of the City’s yearly maintenance program:

- Fieldcrest from Gruene Rd. to terminus
- S. Guenther Ave. from Business IH-35 to W. Coll St.
- Roosevelt St. from S. Santa Clara Ave. to terminus
- S. Sycamore Ave. from Business IH-35 to Lee St.

The project will include removing several inches of old asphalt and replacing it with new asphalt. This mill and overlay process removes distresses and smoothes the street surface, providing a better driving experience and longer roadway life. These improvements are being funded by the City’s General Fund.

Crews will progress through the listed streets (not necessarily in the order shown) beginning Monday, July 18th for approximately three weeks. The work is expected to be completed within the indicated times, weather and other factors permitting.

For additional information, contact Street and Drainage Manager John Cox, at (830) 221-4030.
