**Tree Trimming Work Scheduled Downtown**

**New Braunfels, Texas** – The City of New Braunfels will be performing routine maintenance on 21 red oak trees located along W. San Antonio Street, Main Plaza, and Castell Avenue. The tree trimming, by Heritage Tree Care, will occur between 7:00 a.m. and 5:00 p.m. on Tuesday July 26<sup>th</sup> and Wednesday July 27<sup>th</sup>. The scheduled work will require the closure of on-street parking spaces during the duration of the project and vehicles parked in those spaces will be towed.

“This work is part of the regular maintenance that mature trees require,” said Amy McWhorter, Downtown Development Coordinator. “Well cared for trees are attractive and add considerable value to the businesses and streets around downtown. The type of pruning being done improves the health, safety, and appearance of the trees and the job is being conducted by certified arborists and oak wilt specialists.”

To find more information about tree care, or a local arborist, visit [www.treesaregood.org](http://www.treesaregood.org).

For additional information about the project call 830-221-4057.
