Upcoming Maintenance on Dry Comal Trail

New Braunfels, TX - The New Braunfels Parks and Recreation Department, in partnership with the Comal Trails Alliance, has scheduled work on the Dry Comal Trail for the week of September 26th.

The scope of work includes cutting a new path along the East side of the trail to raise the existing trail out of the flood plain, as well as additional work to improve the trail network for hiking and biking. The project will be completed by S&S Trails and is funded by the Comal Trails Alliance through the McKenna Foundation grant.

The Dry Comal Trail will remain open, but users should exercise caution and be mindful of construction activities in the defined area. The improvements will begin on Monday, September 26th and will conclude on Friday, September 30th, weather and other factors permitting.
