NBU Presents Rain Barrel Fundamentals at the Library

New Braunfels, TX – New Braunfels Utilities (NBU) will be presenting a class on Rain Barrel Fundamentals on Thursday, October 27th, at 7:00 p.m. at the New Braunfels Public Library. NBU Environmental Affairs Representatives will explain many of the aspects of rain barrels, including the benefits of rain water harvesting, installation practices and its various different uses.

“Many people are interested in collecting rainwater for use at home, but don’t know where to start,” said Adult Services Librarian, Toni Davenport. “This will be a great way for people to be introduced to rain barrels and all of the benefits that rain water collection can provide.”

The event is free, open to the general public and no registration is necessary. For more information about the program, call the library at 830-221-4300.
