Landa Park Golf Course at Comal Springs Closed on Monday, July 10th

New Braunfels, TX – Landa Park Golf Course at Comal Springs will be closed to the public on Monday, July 10th to allow for course aerification.

Aerifying the golf course increases surface drainage and root depth and also allows air to reach the grass roots so that the turf can breathe. Aerification also decreases thatch layers and compaction in the soil and provides the opportunity to add soil amendments beneath the turf that would be impossible to do by just simply irrigating.

The course will open for public play on Tuesday, July 11th but will need about 10 days to mend and return to normal.

For additional information, contact the Landa Park Golf Course at Comal Springs Pro Shop at, at 830-221-4340.
