

ENVIRONMENTAL HEALTH

PERMIT REQUIREMENTS: ON-SITE DISPOSAL SYSTEM

All planning materials for an on-site sewage facility must be submitted as a complete application. A permit to construct must be obtained from this office prior to commencing the construction or installation of, or modification to any on-site sewage facility. In order to obtain a permit to construct, the applicant shall submit to this office:

1. A properly completed application form;
2. The required fee: Payment by CASH, CHECK OR MONEY ORDER.
 - Proprietary Systems - \$185.00,
 - Standard Systems - \$160.00.
3. The analysis results of the soil evaluation performed by a Registered Professional Engineer, Registered Professional Sanitarian certified as a Site Evaluator or a Certified Site Evaluator as certified by the Texas Commission on Environmental Quality;
4. A scaled technical drawing or drawings reflecting the proposed on-site sewage facility's compliance with statute/ordinance; and
5. Provide a copy of the Installer's license as issued by the Texas Commission on Environmental Quality.
